

Flights and Flight Carrier Information

All our holidays are based on scheduled flights in Economy class with scheduled flight carriers using special IT fares. We do not hold allocations on flights as we prefer to provide our clients with as much flexibility over their chosen departure date and time as possible and this means that these flights are subject to availability at the time of booking. In most cases we are able to confirm flights at the brochure price however should your chosen flight not be available in our included booking class we may be able to offer you the same flight in an alternative class but at a supplement. This supplement will be quoted at the time of booking.

Air tickets issued using these fares are only valid for the flight booked and no changes are permitted. Nor can a refund be made against any unused portion of a ticket.

Although our included flights are based on departure from London Heathrow Airport we are able to offer alternative regional departures at a supplement. Please see the 'Flight Supplements' table.

We are happy to quote for the online 'no frills' airlines Norwegian and Iceland Express and for those clients who have already booked their own flights with the same we will make a reduction on our brochure price accordingly (to be quoted at the time of booking). Please note that online fares, whilst sometimes (though not always) cheaper in price, carry greater restrictions and must be paid for and ticketed at the time of booking. This means that these flights must be paid for in addition to our standard holiday deposit and are completely non-refundable in the event of cancellation.
